BUILDING PERMITS

Derry Township has contracted with Bureau Veritas, 75 Reserve Lane, Lewistown, PA 17044, a third-party agency, to administer and grant Building Permits as required by Pennsylvania State Law.

Property Owners, or their agents, must apply for building permits at the Bureau Veritas office for any new construction, renovations and demolition. Bureau Veritas also provides the necessary inspection services throughout your project after the Building Permit is issued.

Building Permits are required **IN ADDITION TO** Zoning Permits that are issued by Derry Township.

If you are unsure if you need to apply for a building permit, please check with the Township Zoning Officer before proceeding with your project.
